

## WHO WE ARE

TEV Irrigation and Farm Services Limited (TIFs) introduces a service-based and the most versatile irrigation model, allowing farmers to access water-efficient systems without upfront costs while receiving expert management and maintenance.

This means farmers looking to maximize their water efficiency via irrigation without an upfront investment in equipment now have a new option.

This partnership enables farmers to enjoy the benefits of irrigation without the huge capital outlay required for them to own their own system.

TIFS supports our sister entity, AfriOils, in delivering climate-proofed agriculture production to its out-grower network, anchored by our versatile, dynamic and agile irrigation systems and services.

PLANT IT, WE'LL WATER IT & MORE

## WHAT WE DO

We support the production of nutritious, locally made foods using climate resilient solutions. Our work strengthens supply chains and promotes food security across Southern Africa.

## OUR APPROACH

Our model is built on collaboration, impact, and long-term thinking. We support smallholder farmers, using appropriate technologies and innovations to maintain high quality standards. Every solution is designed with both the consumer and the farmer in mind, ensuring shared value at every stage of the value chain.

## WHY IT MATTERS

TIFS tackles food insecurity and poverty by building a local food system that delivers health, jobs, and long-term impact.

## WHO WE ARE

TEV Africa Foods is a proudly Malawian agro-processing company dedicated to adding value to groundnuts and dry beans. Established in 2014, we have grown into a regional supplier of quality food ingredients, serving markets in South Africa, Zimbabwe, Kenya, and beyond. Our operations are backed by modern processing facilities and a passionate team committed to quality, innovation, and impact across the agricultural value chain.

## OUR PRODUCTS

From raw to refined, TEV Africa Foods offers a wide range of high-quality products including roasted and blanched nuts, peanut paste, and crude peanut oil. Our peanut paste plays a vital role in the production of Ready-to-Use Therapeutic Foods (RUTF). We also supply cleaned and graded red speckled and white haricot beans for export. Each product reflects our commitment to safety, consistency, and nutritional value.

## QUALITY AT EVERY STEP

Using Buhler technology and in-house aflatoxin testing, we meet strict international standards. Our SHEQ team ensures only the highest-quality products reach our customers.

## POWERED BY PEOPLE

At the heart of TEV Africa Foods is our team and farmer network. We work with thousands of smallholder farmers and employ over 200 people at peak season—over half of whom are women. We are building inclusive value chains, creating jobs, and investing in communities while delivering safe, high-value food products. This people-first approach is central to our long-term growth and sustainability.
